EXPERIENCE

back2vibing / Desktop app	Oct 2025 — Present
- Coordinates parallel AI coding sessions, alerting when agents need input, permission, or review and opening the relevant tmux session. - Developed a floating macOS session dock that stays above other windows and supports hover previews without interrupting work. - Built in Rust with a React and TypeScript UI, using an Objective-C bridge for macOS window control. - Supports Claude Code, Codex, OpenCode, Antigravity CLI, Pi, Oh My Pi, and Amp Code across Conductor.app, iTerm2, Kitty, Ghostty, Warp, WezTerm, tmux, and Zellij.	
areyougo.ing / Web app	Dec 2025 — Present
- Built the web app to help friends discover shared live events. - Built the Astro infrastructure and an IMAP email-sync pipeline for ticket inboxes. - Integrated DeepSeek V4 Flash to parse ticket-email XML and automatically update event attendance.	
Import Magic / Desktop apps	Aug 2022 — Present
Launched Windows and macOS desktop apps for automated media offloading and duplicate detection.	
Software Engineer / DoorDash	Aug 2019 — Aug 2022
- Led engineering for Japan and Germany launches, resolving localization, currency, and legacy-system edge cases. - Led a 15-person legal and engineering group to deliver GDPR compliance and unblock the Germany launch. - Delivered the identity support Stripe KYC required for Japanese Dasher payouts before launch. - Identified roughly 50k daily invalid order-to-item requests and coordinated backend validation across teams. - Rebuilt the item-modal UI, built the DoorDash landing page still in use, and delivered item re-ordering.	
Software Engineer / SigFig	Apr 2018 — Aug 2019
Software Engineer / FinancialForce	Apr 2017 — Apr 2018

SUMMARY

Software engineer with about 10 years of experience building full-stack, 0→1 products and launch-critical systems.

PRODUCTS

back2vibing	Agent-session dashboard
areyougo.ing	Event-attendance discovery
Zero Stack	Sites and apps for small businesses
Import Magic	Media offloading and duplicate detection

EDUCATION

University of California, Los Angeles
Chemical Engineering
